ORRIN F. MUZZEY, Road Agent.

Report of the School Board of Newbury.

For the year ending Feb. 15, 1909.

The School Board of the school district of Newbury, respectfully submit the following report.

In reviewing the past year we find that the Truant Officer reported the number of children between the ages of five and sixteen, by the enumeration cards of Sept. 1908, as boys 38, girls 29, total 67.

We wish to thank the Mt. Sunapee Club for their interest and help in helping us to clean and remodel the schoolroom in their district, a work much needed.

A word to the parents. It is a duty and ought to be a pleasure for all having children under their care to see that they attend school all the time it is in session. With the ammount of funds available and the thirty weeks of school during the year there is no excuse why we cannot furnish some bright men and women for the next generation. A teacher cannot teach pupils if they are not attending school.

There is nothing we know of that will cause pupils to lose interest in school work so much as to be kept out a day or so every little while.

A teacher cannot make a success of a school without the aid of the parents. We know of nothing better that parents can help their children to than a good education.

We have noticed that in most cases the parents have stood by the teachers and in these cases the schools have been more satisfactory.

No teacher can do her best if she feels that the parents are against her and stand ready to find fault at the least provocation, and we hope in the year to come parents will visit the schools oftener and encourage both teacher and pupils in their work.

We thank all who have in any way assisted us in this year's work and hope that in the year to come we may have the same generous support.

Financial Report of the School Board.

For the year ending Feb. 15, 1909.
